

Cold Forging

Capabilities

- High aspect ratio
- 10mm x 10mm to 600mm x 600mm
- Features on both sides of the part similar to die casting with very high density.
- Highly thermally conductive materials
- Round Pins, Elliptical Pins, Staggered Configurations
- Secondary operations
- Anodizing in many colors

Forging Machine

Materials

- Aluminum 1100
- Copper CU 1100
